

10/17/12 - Doug McKinney / internal

- Under QA/QC and peer rev

then O&I admin review

- Doug must ^{also} inform lab
dir. who may have to
review as well (due to
RA interest) - plans to
discuss 10/31 in person

- Doug will call me ~~tomorrow~~
tomorrow after talking
to his QA/QC reviewer,
Susan, and his FOIA

coord. consitn to confirm
status and review timeframe.

bottom line - O&I does not want to
release ^(to anyone) before review is complete

10 labs - academic / industry (etc)

interlab eval of leaching tests

vs pH

vs Hyd/Solid

- cleared peer review

- cleared Lab Tech Inf Group (EPA only)

- next step = ~~ORNL~~ ^{and} administrative

review / NODA in FR (reg)

N6M)

- swaps, draft posting by EOA and OCRE website

- two more tests which measure release rates

NODA in 1 yr

- mark balloon re SW 846 703 708 0157

- methods avail since '02 and extensive use by states and europe

Fusan
Prometec
10/13/11

- dynamic vs static (LF)
pH card / or pH varies
over time
- also Δ_{in} lig/solid
ratio (re Hydrology)
